

Spring Assembly/Convention 2010
May 22, 2010

As Forum Coordinator:

Each registered group with a Current Mailing Address (CMA) is continuing to get a free subscription to the Forum. Drs please check your CMA lists to determine if the Forum is actually getting to the group itself. If that is not the case, I would encourage having someone from the group contact the WSO to rectify that. The WSO has a goal for each group to have two copies going to the group. Ten states meet that as of April of this year.

The WSO reports that Forum subscriptions are up 26% over last year. This does not count multiple subscriptions. This brings the average subscription per group to 1.6, still short of the goal of 2subscriptions/group. The New York numbers are in. There has been a 17% increase in Forum subscriptions from May 2009 to April 2010. With the NYN area accounting for approximately 42% of the total groups in the state, a 42% increase may be a NYN area goal. There is a 15% increase in personal subscriptions in general. The WSO is very excited about that since the personal subscriptions have been in decline in recent years.

Please send me your submissions for a “Fact Sheet” on the Forum. The Fellowship Communications Committee is looking for ways groups use the Forum during their meetings, how they encourage individuals to subscribe to the Forum or how groups encourage submissions of articles to the Forum. This “Fact Sheet” will be compiled and distributed to the membership in the NYN Area.

We need to keep up the good work.

Gratefully Submitted, Gina C
