

Report of the Alateen Ad-Hoc Committee – AWSC 3/26/2011

We have been working on the Alateen Requirements and Guidelines. I feel it is important to get this done first. It has been discussed whether we need to separate out the paperwork portion of the position and the actual working with the Alateens and AMIAS. I have reviewed three different areas. They go from very simple to very complicated. Most areas conduct background checks. The one thing that I noticed is that all areas make a point to stress better communication between all officers and coordinators. Do we need to decide this now?
