5. Spring 2013- Districts 5 & 22 are hosting and will be having their 1st planning meeting soon. The assemblylconv will be in the Plattsburgh area.
6. Something to think about for future assemblies is if we would like to continue to be green by having only jugs of water instead of bottles. Everybody brings their own refillable water bottle. This was done at an assembly last year and I thought it worked well. Any thoughts from others that were there? We could bring our own coffee mugs too! (Styrofoam is horrible for the environment)
