

### Archive Coordinator Report Spring 2015

I was able to pick up the archives from the previous archivist in early February. I am still grooving into the position as Archive Coordinator. I look forward to going through the boxes and thinking about would kinds of displays to put together. I did have one member contact me about adding items to the archive. Unfortunately it turned out that the material was not CAL nor related to event in the NYN area. It a good reminder, that if wanting to submit items to NYN Archives they be related to events in our area or conference approved items. I look forward to the coming year and working with the new panel.

Yours in Service,

Kevin M.
