

**New York North 2015 Spring Assembly/Convention
May 29-31
Archives Coordinator Report**

I have started scanning through the boxes to get a sense of what we have. There are many District and Area minutes, financial reports, old Literature and pamphlets and lots of Forums. I'm not the most creative person so brain has to work hard on trying to figure out how to create an interesting display for the assembly/conventions and can get overwhelming. This is where the tools of the program help me. When my mind start racing with many things, I can stop, take a breath, and remember First things first. Just be in the present while going through the boxes and HP will show me the way. Although I wasn't able to put something together for Spring 2015, my goal is to have a display for Fall 2015.

I did have one member contact me about adding items to the archive. Unfortunately it turned out that the material was not CAL nor related to event in the NYN area. This serves as a good reminder, that if wanting to submit items to NYN Archives they be related to events in our area or conference approved items.

Thank you for the opportunity to give back to Al-Anon. Service is part of how is works for me.

Yours in Service

Kevin M
