

Newsletter Editor Report

I have published four newsletters with the guidance of Gwenne and Connie, and the technical help of Pat from District 2. Without those three, I'd probably have thrown in the towel. Two of those issues were later corrected and re-sent, which wasn't a humiliating experience, since I've learned in this program to accept being human. There is a definite learning curve here for me, but completing the last issue without technical help, because of Pat having the flu, made me overcome my tendency to rely on her, when a little extra effort was all that was required. I also ended up feeling better about myself, and learning that old dogs can learn new tricks. I've also printed and mailed a total of 144 newsletters, at a cost to New York North AFG of \$159.12. The former commercial printer would have charged about \$700.
