

New York North Fall AWSC Report

First Name: Vicky

Last Name Initial: D.

Date: September 20,2025

Report: Recertification of 29 AMIAS was completed in June. There has been significant attrition of AMIAS who are aging out or opting out because a meeting has closed. We need more AMIAS in order to be prepared for supervision of Alateen events and provide rotation of service. Please bring this to your groups and consider this special form of 12th Step work, especially if you live in a district where there is an Alateen meeting.

At this time there are seven certified Alateen groups in NYN. Of these, the space for two groups are being held although there are no members.
